GitHub: github.com/uussaff | LinkedIn: linkedin.com/in/uussaff

Professional Summary

Computer Science undergraduate with a strong foundation in C++, Object-Oriented Programming, and Data Structures. Adept at building practical software solutions, optimizing systems, and leading collaborative event operations. Seeking to leverage analytical skills and backend programming knowledge in a dynamic development environment.

Skills & Abilities

Programming Languages: C++, Python, Assembly Language (8086)

Core Concepts: OOP, Data Structures & Algorithms

Technologies: .NET, HTML, CSS

Tools: Git, GitHub

Strengths: Problem-Solving, PC Troubleshooting, System Optimization

Projects & Experience

Academic Projects | Student Developer | Feb 2025 - Present

- Developed a console-based Bank Management System in C++ utilizing core OOP principles (Inheritance, Polymorphism) and file handling for persistent account data storage.
- Engineered a Stack Tower Game in C++ by implementing custom Stack data structures to handle block placement and game logic.
- Created responsive landing pages using HTML and CSS.

Event Management | TEDx UMT & UMT Ushers | Feb 2025 - Present

- Coordinated logistics, managed cross-functional teams, and executed task delegation to ensure the smooth operation of major university events.

Education

BS Computer Science | University of Management and Technology (UMT), Lahore | Feb 2025 – Present

CGPA: 3.48/4.00
